

Palmerton Library hosts a ProLog Unleashed Wi-Fi Hotspot!

July 2006 Palmerton, PA PenTeleData and Palmerton Library are proud to announce the addition of a ProLog Unleashed Wi-Fi hotspot at the library benefiting Palmerton and surrounding communities.

“We are very excited to be working with Palmerton Library to offer its visitors the opportunity to connect to the Internet with a laptop or other Wi-Fi device from our ProLog Unleashed hotspot. We are continuing our commitment to our communities and their local businesses by making access available while away from work and home,” says Dean Hosier, Director of Marketing at PenTeleData.

The Palmerton Library currently has Internet capability, featuring several desktops at a centralized workstation. This new hotspot, however, will allow visitors of the library to access the Internet if all workstations are currently occupied. All they need is a Wi-Fi capable device. The service is available free to PenTeleData ProLog Express Broadband customers as well as at a daily or monthly rate to anyone else with the equipment necessary to utilize it.

“We are excited to offer this feature to our patrons and to be working with PenTeleData on this project. Visitors of the library will now be able to access the Internet via their own Wi-Fi ready devices anytime, anywhere throughout the Library during our normal hours of operation,” says Diane Danielson, acting director for the Palmerton Library.

ProLog Unleashed wireless Internet access consists of “hotspots”—areas of wireless connectivity—which provide reliable, high-speed Internet access to anyone with the correct equipment including laptops with a wireless network card installed, handheld computers with wireless capability, and other Wi-Fi (Wireless Fidelity) enabled equipment such as some cellular phones.

ProLog Unleashed is free for ProLog Express Broadband customers—ProLog Express is available through PenTeleData’s cable and telephone company partners including: Blue Ridge Communications, Service Electric Cable TV & Communications, Service Electric Company, Service Electric Cablevision, CATV Service Inc., and Ironton Telephone.

About PenTeleData

Founded in 1994, **PenTeleData** is Pennsylvania’s largest provider of Internet service and data connectivity and remains a family-run organization with its heart based in northeastern Pennsylvania. Offering quality unlimited Broadband and dedicated Internet access, data transport and consulting services throughout Pennsylvania and New Jersey, **PenTeleData** draws its resources from a consortium of cable and telephone companies.

Regional telecommunications companies make up PenTeleData, the regions largest privately owned fiber optic network, including Blue Ridge Communications, CATV Service Inc., Ironton Telephone Co., Service Electric Cable TV and Communications, Service Electric Cablevision, Service Electric Cable Company and Service Electric Company.

PenTeleData has engineered one of the largest, privately owned fiber optic networks in the nation with over 5,000 miles of fiber optic cabling. Running on high-speed lines (OC-12, OC-3, DS3, DS1) and OC-12/OC-3 SONET rings, the **PenTeleData** 10 Gb/s ATM/MPLS network -- with more than 60 Points of Presence throughout Pennsylvania and New Jersey -- delivers Voice, Video, Data and Internet services throughout the region.
