

## ISG-30W

### ISG-30W Router, Firewall, 30VPN

Designed for all Small Office and Home Office (SOHO) applications, the ISA-30W offers superior Firewall feature and standard-IPSec VPN tunneling, protecting networks from intruders. ICSA certification for Firewall and IPSec VPN ensure security as well as interoperability with ICSA-certified products from other vendors. Additional value-added services, including traffic redirection and dial backup features, maximize performance and efficiency, and minimize operation and maintenance costs. Security management is further simplified with the ISA-30W's intuitive Web management interface and administration wizards. With its comprehensive list of features available in one compact unit, the ISA-30W is the SOHO users' best choice in Internet security gateways.

**Benefits; Robust, State-of-The-Art Firewall Security:** With ICSA Certification, the ZyWALL 30W provides state-of-the-art Firewall performance and robust security. Based on Stateful Packet Inspection and Denial of Service (DoS), it provides the first line of defense against hackers, network intruders, and other hazardous threats.

**VPN (Virtual Private Network) Support:** The ZyWALL 30W supports ICSA certified IPSec VPN, suitable for site-to-site and remote access deployment. Data encryption over the Internet ensures secure transmission between two sites, and can be used to replace a private leased line or frame relay network, allowing global interconnectivity at a minimal expense.

**\* Effective Networking Resource Allocation:** The ZyWALL 30W enables network administrators to allocate network resources while guaranteeing Quality of Service (QoS). Network bandwidth allocation increases productivity and efficiency in daily operations by tailoring a system to specific demands.

**Traffic Redirection for Broadband Backup Connection:** The ZyWALL 30W supports fail-over and fail-back technology by forwarding WAN port traffic to backup ISDN or Analog modems when the WAN port connection fails. When the WAN connection is reestablished, the traffic returns. The ZyWALL 30W can also perform backup functions by connecting ISDN or Analog modems to ensure availability of the Internet. The ZyWALL 30W backup features save the cost of IT consulting, device maintenance, and daily operation losses.

**Mobile Network with Optional Wireless LAN:** The ZyWALL 30W provides an optional wireless LAN solution by adding ZyXEL's ZyAIR B-100 wireless LAN PC card. Based on IEEE 802.1x authentication framework and RADIUS accounting records, the ZyWALL 30W offers the convenience of wireless LAN access without sacrificing the security and reliability expected from cabled Firewall / VPN solutions.

1. Select Product & Options from Row(s)		2. Pick this and	3. A or B		4. Or, Exclusive Plus Plans
Pick Rows	ISG-30W – Internet Security Gateway Wireless Ready Router	Purchase	A. Year PIA Maintenance	B. Monthly Maintenance	Plus Plan Monthly Rental & Maintenance
H.	Base Pricing - SOHO ISG-30W Router	\$499.00	\$99.80	\$12.00	\$54/Mo.
C.	Basic Router Configuration & On-site Setup of Unit as Cable/DSL/WAN Internet Router	+/- 4 hrs. @ \$120/hr.	\$78.00	\$10.00	\$50/Mo.
C.	Firewall Configuration (Servers or Custom Options extra)	\$120.00	\$25.00	\$10.00	\$22/Mo.
C.	VPN Configuration Option (*Final Costs of VPN setups is dependent to number of VPNs)	*\$120.00	*\$25.00	*\$10.00	*\$22/Mo.
U.	Internet Content Filtering setup ( <i>one time</i> ) and Annual ICF Subscription Service.	\$299.00 \$199.00	\$60.00 \$40.00	\$10.00	\$41.95/Mo.
S.	Optional: Remote Security Client Agent VPN Client for MS-Windows OS, 9x/NT4/XPH, per PC, for ISA5.	\$89.95	\$25.00	\$10.00	\$10+\$12=\$22/Mo.
H.	Optional: WRAir B100/120 add-in PCMCIA Wireless Cared, 802.1 lb. compliance for Wireless Local Area Network access, one needed in Router	\$69.95	\$15.00	\$2.00	\$2+\$8+\$10/Mo.

#### Features

**Virtual Private Network**  
- 30 simultaneous IPSec VPN

#### Firewall Security

- Packet Filtering
- Stateful Packet Inspection
- DoS and DDoS Protection
- Access Control
- Real-time Attack Alert and Logs

#### Application

- DNS proxy
- Inet Time Calibartion
- Traffic Redirect
- Dynamic DNS
- Telnet Client
- Diagnostic Tool
- Call Scheduling
- Budget Management
- Dial Backup
- UPnP

#### Content Filtering

- Java/Active X/Cookie/Proxy Blocking
- URL and Keyword Blocking
- Web Content Filtering (Cerberian)

#### Network Management

- Web Based Configurator
- Telnet access
- TFTP/FTP Firmware Upgrades
- SNMP support

#### ISP Authentication

- RR Manager
- PPPoE
- PPTP

#### Wireless Option

- IEEE 802.11b/11g compliant
- 64 / 128-bits WEP Encryption
- IEEE 802.1x Port-Based Auth
- IPSec Pass Through
- IEEE 802.1 Port-Based Authentication w/Radis Client
