NAS

Affordability and Simplicity for Enterprise-level Data Management.

Network Attached Storage (NAS) Servers offer the ultimate ease in implementation and management

Snap Appliance is the undisputed leader in Network Attached Storage (NAS) solutions. The award-winning Snap Server® line features a wide range of storage capacities and form factors for workgroups. Snap Servers powered by GuardianOS™ and SnapOS™ offer cross-platform file sharing. Install and integrate our products easily with an existing network. They require minimal network administration and cost less than traditional storage options.

|  <p>Snap Server® 14000 Enterprise performance, management, security and availability in a cost-effective, simple NAS appliance. Over 2.1TB of robust storage for less than a penny per megabyte. 2.16TB. \$21,529</p> |  <p>Snap Server® 4400 Drive down the cost of workgroup storage in your enterprise. No other 1U workgroup server matches its value, performance, and feature set. 720GB. \$6,189</p> |  <p>Snap Server® 12000 Unlike a conventional Win2000/NT server with disk arrays, this Snap Server® delivers an unprecedented combination of savings, storage density and data availability. 960GB. \$12,399</p> |
|  <p>Snap Server® 4100 The ideal alternative to deploying a traditional large capacity file server, it delivers extraordinary reliability and compatibility. 320GB \$2729</p> |  <p>Snap Server® 2200 Delivers fast performance comparable to a traditional file server, for a fraction of the cost. \$1,739</p> |  <p>Snap Server® 1100 The small footprint and light weight make it an ideal portable server for telecommuting, trade shows, sales calls or presentations. 120GB. \$959</p> |

NAS Server Software

- > DataKeeper - PowerQuest DataKeeper backup software.
- > Server-to-Server Synchronization - enables one or more Snap Appliance NAS servers to automatically synchronize files.
- > DiskXtender Appliance Edition - Consolidates distributed network data into a virtual storage pool.
- > EmailArchive - email archive and management solution.

Snap Server® 1100

Overview The Snap Server® 1100/120 GB and the Snap Server® 1100/80 GB both install in minutes, automatically recognize and support all major network clients and platforms, and require very little administration or support. In addition, the compact size of both units make them great portable servers. Their low cost, versatile size and remote management via a Web browser also make them ideal for special uses: remote office storage that can be remotely managed over the Web (for satellite offices with little or no IT support) or storing drive/desktop images for fast, easy software distribution over the network.

Benefits

- > 120GB or 80GB up, network Attached Storage (NAS).
- > Five minute installation.
- > Compact, portable easily fits in a briefcase, on a shelf or on a tabletop.
- > Automatically recognizes and supports all major network platforms (Windows, NetWare, Macintosh, Unix and Linux).
- > 100Base-TX/10Base-T Ethernet connectivity.
- > SNMP support for centralized management (can also be managed remotely via Web browser).
- > Very low total cost of ownership (TCO).
