PENTELEDATA IS PROUD TO SERVE DANVILLE, PA

VOLUME 4 · ISSUE 7

July 2023

## Dear Valued Customer,

PenTeleData offers hosted solutions that have the potential to provide almost all your company's basic technology needs, including competitively priced business voice services. The "real price" of other providers has hidden fees and charges that do not appear as a part of the price, but truly add to the cost of the services. Besides, it makes sense to use the same trusted network you've already chosen for network connection services. In fact, we'll customize a solution that works best for your business. If you'd like to know more, give us a call. We'll be glad to help.

Thank you for your business and continued support.

**Jaime Mendes**  
Vice-President of Operations  
PenTeleData

## Celebrating our Freedom

*"In the truest sense, freedom cannot be bestowed; it must be achieved." — Franklin D. Roosevelt*

This July 4th, and every day, we celebrate our country. Like PenTeleData and most other businesses, The United States of America was founded on courage, imagination, and determination to complete the goal at hand.

As we enjoy the holiday to remember our freedom, we wish you and your families a happy and healthy summer season. Thank you for choosing PenTeleData to keep you connected.

## OUR FAST CONTEST

**What is the name of the Cincinnati Reds pitcher to set a Guinness World Record for the fastest baseball pitch of 105.8 mph?**

One lucky winner will receive a \$150 Amazon gift card. Rack your brain and figure out the answer to the brain teaser. Then send us an e-mail with your full name, address, daytime telephone number (where we can contact you), and the answer to the brain teaser below, to [chat@corp.ptd.net](mailto:chat@corp.ptd.net) All entries must be received by 7/31/23.

Good Luck! PenTeleData

## FOLLOW PENTELEDATA ON TWITTER! (AND WIN TICKETS!)

We want YOU to see our updates and information on Twitter. The best way to do that is to follow us! Just search PenTeleData or @PenTeleData on Twitter and you'll find our name, with the verified checkmark.

Follow us there, then email us at [chat@corp.ptd.net](mailto:chat@corp.ptd.net) with the subject line **I followed you!** Include your Twitter name/handle in case we randomly choose your email from all entries, because one lucky person will **win four tickets to see the Goo Goo Dolls at Musikfest on Wednesday, August 9th**. The last day to enter is Tuesday, July 25, 2023 at noon. GOOD LUCK!!

# FAST CONNECTIONS

The Swiftwater of the Pocono Mountains, Meadows Petroleum, and NMIH

## I.T. CORNER

### Protect Your Data

Is your company's data protected against I.T. failures and outages, I.T. Device theft or loss, extreme weather and other events, data corruption issues, and ransomware attacks? Could you recover your data quickly and easily? If not, PenTeleData's I.T. Services can help you prepare proactively to recover quickly from data corruption issues you may not be able to address on your own. Don't wait until it's too late - call us today!

For more information call us at 800-331-5060 or visit <https://www.penteledata.net/it-services>

## PENTELEDATA IS PROUD TO SERVE DANVILLE, PA

**Danville, Pennsylvania was founded in 1792 by prominent industrialist William Montgomery and named for his son Daniel. It is located along the Susquehanna River in Montour County, the smallest county in Pennsylvania.**

From the 1800s through the early 1900s, Danville was at the heart of an important iron-producing region. During this time, the mills, blast furnaces, and foundries significantly contributed to the area's success and were the region's largest employers.

Danville was home to many visionaries during this era, which led to notable developments. The railroad industry's first iron T-rail was famously created and manufactured in Danville; a self-winding clock was designed by Henry Rempe; the typewriter was invented by Christopher Sholes; and a recreation center for the women who worked at his silk mill was built by J. F. Lavigne.

Danville's prosperity was seeded by these innovations, as well as the on-going productivity of the iron mills and foundries. A building boom showcased the community's rising influence and resounding community spirit. During this era, cultural centerpieces such as an opera house, architecturally designed public buildings, mansions with river views, and public events sprung up and most remain to this day as beloved reminders of Danville's role in the Industrial Revolution.

In time, the mills and mines of central Pennsylvania began to close with devastating consequences for some communities. Danville was not immune to the

nation's changing economic landscape; however, it was fortunate to evolve its economy ahead of the decline of the iron industry. In 1915, local philanthropist and community leader Abigail Geisinger drew on her iron industry fortune and deep-seeded commitment to the health and welfare of the community to found the hospital that would become Geisinger Medical Center.

Over the last 100 years, Geisinger has grown to become an internationally acclaimed integrated health system that employs 23,000 and serves 3 million residents in central Pennsylvania. Once an iron capital, today Danville is home to the largest rural healthcare facility in the country.

The leaders of Danville have been proactive about investing in the downtown area, making it a welcoming and prosperous economic environment filled with new shops, restaurants, and offices.
