FASTCONNECTIONS

PenTeleData®

VOLUME 6 · ISSUE 6

June 2025

Dear Valued Customer,

Did you know that PenTeleData offers hosted solutions that have the potential to provide almost all your company's basic technology needs, including competitively priced business phone services? It makes sense to use the same trusted network you've already chosen for your Internet connectivity. In fact, we'll customize a solution that works best for your business. If you'd like to know more, give us a call. We'll be glad to help.

Thank you for your business and continued support.

Jaime Mendes
Vice-President of Operations
PenTeleData

OUR FAST CONTEST

What is the recorded speed of the fastest Slapshot in NHL history by Zdeno Chara?

One lucky winner will receive a $150 Amazon gift card. Rack your brain and figure out the answer to the brain teaser. Then send us an e-mail with your full name, address, daytime telephone number (where we can contact you), and the answer to the brain teaser below, to chat@corp.ptd.net All entries must be received by 6/30/25.

Good Luck! PenTeleData

PENTELEDATA IS PROUD TO SERVE ELYSBURG, PA

A very picturesque area in Northumberland County is the little town of Elysburg, Pennsylvania.

Located in Ralpho Township, the small town of Elysburg is mostly residential and farmland but is perhaps best known as being the home of Knoebels Amusement Resort, a family-owned and operated amusement park.

Knoebels Amusement Resort, sometimes called Knoebels Grove, spans more than 200 acres. Family-owned and operated, Knoebels is America's largest free admission amusement park. The park offers nearly 60 rides, including two world-class wooden roller coasters, along with free parking and free picnic facilities.

1926 marked the formal beginning of the park. The park and its rides have won awards from organizations such as Amusement Today, American Coaster Enthusiasts, and The International Association of Amusement Parks and Attractions. For several years in a row, Knoebels has won the Amusement Today's Golden Ticket Award for Best Amusement Park Food. The park has also won numerous awards for the Phoenix wooden roller coaster, Grand Carousel, Haunted Mansion, and other rides.

For those who enjoy camping, Knoebels Campground features over 550 sites and 36 log cabins. After the January 1996 flood, Knoebels purchased and the restored the Lake Glory Campground about five miles from Knoebels Amusement Park in Elysburg, PA. Today this facility features over 150 sites and a dozen log cabins.

Remote Workforce

Keep Your Remote Workers Secure, Productive, and Supported

Remote working has become "business as usual." What does that mean for your technology environment? How can you make sure your employees have the right tools and support to be productive no matter where they're working?

As a managed I.T. service provider, we can help answer your questions about remote work: what to do when multiple employees at separate locations have technical issues, how to secure workers handling financial data from home, and how to avoid risks to your business overall.

Find out how we can help your remote team succeed by visiting www.penteledata.net/IT and calling us at 1-800-331-5060.

PENTELEDATA'S MANAGED WIFI FOR MULTI-DWELLING UNITS

Have you heard about PenTeleData's Managed WiFi solution for multi-dwelling units (MDU)?

PenTeleData Managed WiFi is classified as both an MDU solution and one that uses managed WiFi as its core mechanism to deliver connectivity and management tools tailored for apartment buildings and the end user. It addresses both the technical WiFi needs (interference, security, scalability) and the operational needs of MDU property managers (tenant onboarding, revenue streams, IoT support). PenTeleData Managed WiFi for an apartment building, is a comprehensive MDU solution, not just a generic managed WiFi service.

PenTeleData also includes tenant information gathering and setup assistance. By design, MDU is intended to adapt to varying requirements, dependent upon building design and the number of subscribers. Our system has been built from the ground up to accommodate both flexibility for the user and to meet the rigid requirements PenTeleData demands for security on our network. Each user is assigned an individual connection to the Internet and is managed from

a designated location on the property. Similar to a residential broadband Internet connection, users receive a public IP address, ensuring compatibility with all Internet applications and all standard user-tracking methods necessary to identify malicious or unethical Internet usage.

What tools will PenTeleData and Tenants have access to:

- **UPRISE –** MDU PROPERTY MANAGEMENT
- **HOMEPASS** – FOR TENANTS TO MANAGE THEIR WIFI NETWORK
- **FRONTLINE –** TROUBLESHOOTING & MANAGEMENT

To learn more, visit https://www.penteledata.net/MDU
