VOLUME 6 · ISSUE 10
## October 2025

## Dear Valued Customer,

Benjamin Franklin is quoted to have said, "By failing to prepare, you are preparing to fail."

We've been planning for more than three decades, so PenTeleData can help your business move forward. How can our technology help your company find continued success in the days and years to come? Whether you need help from our I.T. Services group, a faster connection, phone services, network redundancy or something else, give us a call. We have an affordable custom solution for your company to plan for today both now and into the future.

Thank you for your business and continued support.

**Jaime Mendes**
Vice-President of Operations
PenTeleData

## OUR FAST CONTEST

*The fastest men's marathon time of 2:00:35 was set at the 2023 Chicago Marathon by whom?*

*One lucky winner will receive a $150 Amazon gift card. Rack your brain and figure out the answer to the brain teaser. Then send us an e-mail with your full name, address, daytime telephone number (where we can contact you), and the answer to the brain teaser below, to chat@corp.ptd.net All entries must be received by 10/31/25.*

*Good Luck! PenTeleData*

## PENTELEDATA IS PROUD TO SERVE SAINT CLAIR, PA

**Saint Clair is in the heart of what had been for many years an active scene of mining operations. It is about the only community in Schuylkill County that is relatively flat. Its area is broad and long and surrounded on all sides by mountains.**

The beginnings of the borough stretch back to 1808, when the Commonwealth patented the tract to James May. Tracts passed through many people until 1830 when a deed was named to Arthur St. Clair Nichols. The deed stated the land is four hundred and two and 3/4 acres, upon which the town of St. Clair has been located and laid.

The first industry in the borough was lumbering due to the dense forests in the area and a valley where a large stream of water flowed. The Mill Creek served as a source of energy and means of transportation. Coal mining began in the borough in 1824, with the discovery of rich coal veins under the entire borough. The most important of the veins are Primrose, Mammoth, Orchard, Skidmore, SevenFoot and Buck Mountain. The Mammoth Vein was accidentally discovered in 1830 by bank teller Issac Beck, while washing his hands in the creek. Coal operations surrounded the borough from this time up to the 1960s.

Patriotism has always been a pride of Saint Clair's citizens. During the Civil War, the borough gave the greatest percentage of men in Schuylkill County, including several members of the "First Defenders' ' who answered the call of President Lincoln. During the Spanish-American War Saint Clair responded with 105 men. During the "Great War" (WWI) Saint Clair sent 366 men to the armed forces and five women who served as Red Cross nurses.

St. Clair was called home by several notable citizens, including John Siney, Dr. Joel T. Boone, Dr. Claude A. Beck, creator of the first working defibrillator and Congressman Timothy Holden. Professional sport figures included Jack Titus, Jack Quinn, Eddie Delker, Bob Ryan, Joe Holden, George Sommers, Ed Shrockman and Lance Rautzman.

I.T. services

### Remote Workforce

**Keep Your Remote Workers Secure, Productive, and Supported**

Remote working has become "business as usual." What does that mean for your technological environment? How can you make sure your employees have the right tools and support to be productive no matter where they're working?

As an I.T. managed service provider, we can help answer your questions about remote work: what to do when multiple employees at separate locations have technical issues, how to secure workers handling financial data from home, and how to avoid risks to your business overall.

**Find out how we can help your remote team succeed. Call us today at 1-800-331-5060.**

## PRODUCTIVITY HACK
## *(Because Who Doesn't Need More Time in the Day?)*

**How do you delete words from whatever you are typing? You don't have to correct mistakes by backspacing one character at a time! The Ctrl+Backspace keyboard shortcut is used to delete the entire word and the space preceding it to the left of the cursor. This is a useful time-saving shortcut that works in many applications, such as Microsoft Word, Outlook, and Google Chrome.**

There is no direct equivalent to the Windows Ctrl+Backspace key for a Mac, but you can achieve the same functionality by using Option + Delete to delete the previous word. If you are specifically looking for the behavior of a standard Mac "delete" key (deleting the character to the right of the cursor), you can use the Fn + Delete combination.

## HAVE YOU SEEN OUR NEWEST VIDEOS?

**It's official! The first two of our five new video spots are airing. Both are testimonials: one from Eric Williams at Martin Guitar and the other from the Kurt Landes from the Lehigh Valley IronPigs.**

You can watch them on YouTube at
**https://www.youtube.com/watch?v=w6lcWXYk8xw&t=10s**

and

**https://www.youtube.com/watch?v=sfaBmbhtMaY**

If you'd like to see the new videos and some from the past too, visit our website at:
