

Cisco® 8832 IP Conference Phone

The 8832 delivers high-quality, full-duplex, wideband VoIP communications. Its 360-degree coverage addresses the needs of medium to large conference rooms up to 800 square feet (74.3 square meters). It also serves private office desks, such as those for executives.

The 8832 is sleek and contemporary for today's office settings. Its rounded edges make it easy to move in a room or an office. The backlit color display helps you view and navigate menu options.

Feature list

Full-duplex speakerphone:

360-degree coverage for any 20 x 20-foot room and up to 10 participants.

With the optional wired extension microphone kit, it covers any 20x34-foot room and up to 22 participants. (Sold separately).

With the optional wireless extension microphone kit (using Digital Enhanced Cordless Telecommunications [DECT] technology), it covers any 20x40-foot room and up to 26 participants. (Sold separately).

Ergonomic design:

An easy-to-use interface that provides a traditional telephony-like user experience.

Graphical display:

The 3.9-inch 480x128-pixel color LCD provides scrollable access to calling features.

Volume control

Networking features:

10/100 Power over Ethernet (Class 3), requiring no standalone power supply.

An optional power supply cube can be used for non-PoE deployments. (Sold separately).

Available keys:

Four context-dependent soft keys

Two-way navigation and select keys

Standard keypad

Volume-control toggle key

Large mute key accessible from all sides
